

2010 Recommended HPDE Tech Shops

The following is a recommended ** list of shops that can tech your car for **HPDE** events in the Rocky Mountain Region. Please **call ahead for an appointment** and bring a copy of the tech sheet with you. A typical tech takes about 10 minutes. The shops do not charge for an HPDE tech so please be flexible if you need to wait for them to get it done.

** Any ASE certified mechanic can do your HPDE tech provided your car is stock.
